

## QUALITY MANAGEMENT DIRECTORATE

### News bulletin issue No. 02:2021

#### The second cycle of virtual DQIP validation

Quality Management Directorate (QMD) announces its second cycle of virtual validation of the Departmental Quality Improvement Plans (DQIPs) in 2021. The first cycle of virtual DQIPs validation successfully took place from 08 - 19 March 2021. The enthusiastic participation of HoDs from all six faculties and departments in the first cycle shows commitment to preserving CPUT's quality management values and standards, which is appreciated.

The DQIP process is a significant quality improvement instrument used to monitor quality management in the institution, to ensure continuous improvement, monitor progress and action where findings require additional support.

The second virtual DQIP validation cycle will run from 05 - 30 July 2021. The notification to HoDs has gone out, and QMD is once again delighted to embark on this process. We invite all Departmental Heads to participate in this exercise and help add value to the Quality Management system at CPUT. The second cycle feedback and outcome analysis will be presented to all Faculty Deans and HoDs for further consideration and will later serve at the QARM meeting.

For more information, you may please contact the QMD representative Ms Gugu Gila at [mhlaulig@cput.ac.za](mailto:mhlaulig@cput.ac.za)

**Kind Regards**
